

# Overview

**Soccer Jackpot (SJ) is a jackpot style game where the player can wager the number of goals scored for ten matches to win prizes.** SJ can result against real-world matches or external licensed contingencies following the same format.

## Game Format:

1. Each day, a competition will run consisting of ten matches.
2. To wager, customers choose numbers from 0-6, zero being no goals etc, and six goals or more are selected will be 6.
3. The customer must choose all ten matches to place a validate wager.
4. The outcome of a match will be determined by the number of goals scored within the entire period of the match.
5. Players can only place wages on the competition before the cutoff time, and the cutoff time will always be before the first match starts.
6. Bets placed after the first match starts or after the competition cutoff time will be automatically rejected.
7. Winnings will be determined by the number of goals that match in each event.
8. Prized are fixed odds prizes, and can be adjusted for future events.

**Example bet:** 6-4-5-1-3-0-1-3-5-6

**Final result:** 0-1-3-5-6-6-4-5-1-3

**Matches:** 6-4-5-1-3-6-1-3-5-3 (2 matches)

## Example matches:

	Match	Goals Scored
2020-09-22 : 08:00:00	Real Madrid vs Porto	0

## Example Jackpot & consolidation prize tiers:

- Jackpot: 10/10 Correct game predictions R 1,500,000.00.
- 2nd Prize: 9/10 Correct game predictions R 50,000.00.
- 3rd Prize: 8/10 Correct game predictions R 20,000.00
- 4th Prize: 7/10 Correct game predictions R 500.00.
- 5th Prize: 6/10 Correct game predictions R 100.00.

## Resulting against external licensed contingencies.

**It is also possible to determine the outcome by matching against external contingencies.**

1. The contingencies, that are being wagered on, must be known before the wager.
2. When combining the contingencies for results, they must have ten events.
3. The outcomes of each event must be in the range from 0 to 6.
4. Therefore, outcomes will be resulted in the same manner as the real-world soccer matches.
